

MARIAM ABDAN

Cybersecurity Analyst | Data Analyst

GPA: 3.17 | Bahraini | +973 3990 3638 | mariamabdan13@gmail.com | [LinkedIn](#)

PROFILE

Entry-level Cybersecurity Analyst with hands-on experience in ethical hacking, SIEM monitoring, threat analysis, and data analytics. Brings 4 years of sales and coordination experience, combining technical skills with strong communication, teamwork, and problem-solving abilities.

HIGHLIGHTED SKILLS

- Cybersecurity Tools: Kali Linux, Wireshark, Wazuh SIEM, Suricata, Greenbone Enterprise, PortSwigger
 - Programming & Analytics: Python, SQL, HTML, Microsoft Excel, Power BI
 - Soft Skills: Event Planning & Coordination, Problem-Solving & Adaptability, Team Collaboration
 - Languages: English (Fluent), Arabic (Intermediate), Tagalog (Intermediate)
-

DEVELOPER EXPERIENCE

Developer Intern, Raincode

Feb 2026 - June 2026

Projects: Amaan “Traveler’s Companion”

- Contributed to the design and development of Amaan, a startup mobile application, collaborating across frontend and backend development.
- Implemented secure authentication and authorization mechanisms, including:
 - Password hashing for credential protection.
 - JSON Web Token authentication for secure session management.
 - Role-Based Access Control (RBAC) for user privilege separation.
 - Secure API communication using HTTPS/TLS encryption.
- Applied secure development practices aligned with OWASP, NIST principles, and secure coding standards.
- **Tools Used:** Flutter, Dart, Python, Flask, SupaBase.

CYBERSECURITY EXPERIENCE

In-House Project, Bahrain Polytechnic

Sept 2026 - Jan 2026

Projects: Securi-Cata

- Designed and developed Securi-Cata, a security monitoring and threat detection platform simulating real-world SOC workflows.
- Engineered a SIEM-integrated IDS using Suricata for real-time network traffic inspection and malicious activity detection.
- Configured Suricata rulesets to detect suspicious behavior, attack signatures and potential intrusion patterns.

- Integrated security logs into Elasticsearch for centralized log aggregation, indexing, and scalable threat data storage.
- Developed interactive Kibana dashboards for security monitoring, attack visualization, incident analysis, and alert investigation.
- Conducted offensive security simulations using Kali Linux to emulate cyberattacks including:
 - Port scanning
 - Network reconnaissance
 - Exploit attempts
 - Malicious traffic generation
- **Tools Used:** Suricata, Elasticsearch, Kibana, Kali Linux

DATA ANALYTICS EXPERIENCE

Data Analytics Immersive Bootcamp Fellow, General Assembly, Bahrain

July 2025 - Oct 2025

Projects:

- **Cybersecurity Attacks Analysis:** Analyzed cybersecurity attack data to identify vulnerabilities using data cleaning and visualization techniques. **Tools Used:** Python, Power BI
- **Wind Turbine Analysis:** Conducted exploratory data analysis to evaluate wind turbine performance and capacity. **Tools Used:** Python
- **Power BI Project:** Visualized housing affordability and credit bond trends to support data-driven investment insights. **Tools Used:** Power BI
- **SQL Data Analysis** Extracted and analyzed large datasets to identify key trends using advanced SQL queries. **Tools Used:** SQL

OTHER EXPERIENCES

Team Leader, MENA Angel Investors Summit, Bahrain

Nov 2025

- Supervised volunteer operations, VIP support, and event flow, recognized for strong leadership and reliability.

Oct 2024 - Nov 2024

- Helped plan and coordinate key event activities for the MENA Angel Investors Summit 2024.
- Facilitated problem-solving, professional networking, and team collaboration during the event.

Sales Associate, LUSH Cosmetics, Bahrain

Feb 2024 - Present

- Maintained an average customer satisfaction score of 90-95% based on in-store feedback.
- Strengthen customer experience while applying strong situational awareness and rapid issue resolution.

IT & Sales Trainee, The Collective Hub, Bahrain

Sept 2024 - Nov 2024

- Assisted lead generation and client engagement through social media and client relations.
- Supported community events and delivered IT assistance with strong organizational skills.

Sales & Admin Coordinator , Xerox, Bahrain	May 2022 - April 2024
- Improved efficiency by managing administrative duties and leveraging advanced Microsoft Office skills. - Streamlined operations by coordinating sales team efforts with other departments.	

EDUCATION

• Data Analytics Immersive Program, General Assembly	July 2025 - Oct 2025
• Bachelor's of ICT, Cybersecurity, Bahrain Polytechnic	Sept 2022 - June 2026

CERTIFICATION

• ElevateME Mentorship Program , PwC Middle East	Dec 2024 - Mar 2025
• Job Shadowing Program , Hopes Talent	Sept 2024
• Certificate of Participation , SmartCoders Hackathon	July 2024
• Power Platform Developer Associate , Microsoft	May 2024

VOLUNTEER , AJM Kooheji Group BSC(C)	March 2025
---	-------------------

- Supported Iftar meal distribution by assisting with setup and service, ensuring a positive and welcoming experience for recipients.
